

An aerial photograph of a lush green agricultural field. A single white wind turbine stands prominently in the lower right quadrant, casting a long shadow to the left. The field is divided into various sections by thin lines, likely furrows or small paths. The overall scene is bright and vibrant, suggesting a sunny day.

OMV

The energy alternative
for your business

www.omv.hu/energy

Reliable long-term partnerships
are the key to lasting success,
built on trust, consistency,
and shared growth.

Maximize predictability and control of your energy costs

Predictable pricing

Transparent monthly average index reduces short-term price fluctuations, offering greater financial stability.

Flexible price locking

Control your costs with options to fix prices for different periods, ensuring protection from volatile markets.

Clear price visibility

Transparent European market index tracking for reliable and consistent pricing information.

Tailored, flexible solutions to fit your business

Adaptable solutions

Flexibility in supply and payment terms, customized to your operational needs.

Secure long-term supply

Leverage long-term partnerships with reliable suppliers and Neptun Deep gas, ensuring continuous supply stability.

Simple & easy to work with

Dedicated service, providing a hassle-free experience for your business.

Competitive edge through expertise and quality

Industry know-how

Local and international experts bring deep insight into market trends and your specific needs.

Competitive conditions

Tailored terms designed to keep you ahead of the competition.

Premium products & services

Access to comprehensive and complex energy solutions built to support your business growth.
